To Whom It May Concern:

We would like to recommend Mr. Jens Gartner with WRS-USA who furnished and installed our new rain water harvesting system. This new system allows us to harvest all the rain water collected from the roof of our building and use it as needed, mostly to irrigate all outside green areas.

The system is modestly priced and the installation was performed in a very professional manner. Should anyone be interested in a rain water harvesting system, Jens Gartner is the one to call to design and install the system.

Sincerely,

A handwritten signature in black ink that reads "Robert G. Marshall II". The signature is written in a cursive style with a long horizontal line extending to the right.

Robert G. Marshall II
